1994 STATE TRAINING INVENTORY (STI)

(for the 1993 school year)

LIST OF PUBLIC ADULT TRAINING PROGRAMS

for

MASSACHUSETTS

[v.16]

MASSACHUSETTS STATE TRAINING INVENTORY
STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post–secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi–state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).

- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four–year colleges or universities, proprietary schools, JTPA service providers, hospital–based schools, and the Job Corps.

- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different ***geographic coding*** of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific ***training code*** and obtain a listing of the providers offering such training. Users may look at a specific ***school/training institution*** and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee
19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626–5718

The next ten pages list the overall index for *ALL TYPES* of training institutions in the Massachusetts State Training Inventory (STI) package.

This publication contains detailed information only for Massachusetts public adult training programs including Job Training Partnership Act (JTPA), adult basic education, apprenticeships, and Job Corps. Other STI listings for the entire Commonwealth of Massachusetts include:

- Secondary Schools with vocational programs
- Two and Four Year Colleges
- Proprietary and Hospital-based Schools

Additional STI volumes which present school listings by Service Delivery Area are available separately. They include:

Boston City
New Bedford Consortium
Hampden Consortium
Northern Worcester Consortium
Southern Worcester Consortium
Metro North Consortium
Brockton Area Consortium
Bristol Consortium
Northern Middlesex Consortium
Berkshire Consortium
Lower Merrimack Valley Consortium
Southern Essex North Shore Employment Training Consortium
South Coastal Consortium
Metro South/West Consortium
Franklin/Hampshire Consortium
Cape Cod/Islands Consortium

State Training Inventory
